REAL ESTATE IN CITY OR COUNTRY Property

Is the surest way to provide a competency, and perhaps build a fortune. Real estate is the best investment, because it is secure, and because the values are bound to go up. The cheap lands of this section will not long remain cheap lands.

See me about the proposition. I can start you right, and show you the way to save.

....The Bank Habit....

Possibly you who read this have never kept a bank account. If not, let us suggest that you try the experiment. Aside from the fact that your money will be safe from fire and theft, such a habit tends to thrift, economy, discipline and a general understanding of business principles, all of which are essential to success. It also affords a convenient method for the payment of bills; and, as the checks are always preserved and returned to you, they serve as receipts for the amount paid.

Your Children

Having a tendency to squint can be cured, and before having their Eyes taxed by study should have them examined. A child's eyesight is not fully developed until several years after the usual school age, and every precaution should be taken to preserve it.

CONDITIONS AT DALLAS THE FLOOD SITUATION

Trinity Began Falling Slowly Today.
City Without Water, Lights or
Street Cars.

Special to the Herald.

Dallas, Texas, May 26.—After doing damage estimated at over \$1,000,000, and drowning at least three people and rendering four thousand homeless, the Trinity river began falling slowly today. It is believed that when the flood is over the number of deaths will be larger than is now estimated. The men carried down with the Texas and Pacific railroad bridge yesterday have not all yet been accounted for, and it is almost certain that some of them have been lost. Frank Edwards lost his life last night by falling into back water on McKinney avenue, right in the heart of the residence district. Dallas business men are today raising a fund to succor the distress and provide for the homeless. The city is still without lights and water, the public plants being inundated. Only a few street cars are moving today, and these are being operated with power from private plants. All railroads are still practically tied up, and only a few trains are running in and out of Dallas.

WYCKLIFFES SURRENDER

Oklahoma Outlaws With Rewards Out
For Them Gave Up to the Sheriff
at Muskogee Today.

Special to the Herald.

Muskogee, Okla., May 26.—John and Tom Wyckliffe, outlaws who have been a terror to Oklahoma officers for years, and for whom large rewards have been offered, surrendered today to Sheriff Saunders. They gave bond in the sum of \$5,000 each, and were guaranteed fair trials. They are wanted especially for the killing of Deputy United States Marshal Vier and for the shooting of Deputy Gilstrap. The Wyckliffes say they got tired of being on the dodge all the time. They will go to trial and try to prove that they were justified in the killing.

Get the Habit—Cook With Gas.

In Oklahoma Is Improving — Rivers
Are Falling and the Overflow
Water Is Receding.

Special to the Herald.

Guthrie, Okla., May 26.—The flood waters are fast receding today. No additional loss of life is reported today, and the death roll remains at eight. While conditions are improving train service on many lines must remain annulled for several days yet. Some of the roads are completely out of business, while others are managing to maintain a partial service. The damage to crops and railroads in this state is conservatively estimated at \$10,000,000. Hundreds of passengers are stalled at Shawnee, Tulsa, Muskogee and other points. At Muskogee the Arkansas river began falling today. At that place 2,600 consumers are still without gas as a result of the principal mains being broken by the flood. In West Guthrie, where more than three hundred houses were submerged, the water drained off rapidly today and conditions began to assume a normal aspect. The bottoms in the overflowed districts are likely to be under water for several days. Hundreds of laborers are now at work repairing railroad tracks and bridges. At Stigler the Canadian river made a complete change in its course, and railroad bridges that formerly spanned the river are rendered useless. Ardmore has had but one mail train within the past thirty-six hours.

The truck started down a heavy grade and while going at a frightful speed collided with a car standing at the foot of the grade.
